## **PREFACE**

In accordance with the requirements of the Public Management and Finance Law (2012) Revision, this volume of documents contains the Annual Budget Statement, for each Ministry, Portfolio and Office for the 2013/14 financial year.

The 2012/13 Unaudited Financial Results are provided for comparative purposes.

The Annual Budget Statements specify the output delivery and ownership performance expected for each Ministry, Portfolio or Office for the 2013/14 financial year.

In some cases, a Ministry/Portfolio is providing an output which is being funded by way of a user-charge paid by the public, but the user charge is insufficient to cover the full cost of the output. Where this occurs, Cabinet subsidises the shortfall (in other words part of the output is paid for by the user and part by the Cabinet). In these cases the portion of the output that Cabinet is purchasing is included in Output Performance sections of the Annual Budget Statement and the quantity, quality, timeliness and location measures reflect only the portion Cabinet is purchasing. These outputs are usually noted accordingly.

The Annual Budget Statement for each Ministry/ Portfolio/ Office comprises of the following:

### **PART A Ownership Performance**

- A description of the Nature and Scope of Activities to better reflect outputs not being purchased by Cabinet;
- Strategic Goals and Objectives;
- Ownership Performance Targets, which includes financial performance, human and physical capability measures, information regarding major entity capital expenditures, and issues of risk; and
- Planned equity investments and withdrawals into or from the Ministry/ Portfolio are reported

### **PART B Output Performance**

- Outputs to be delivered pertains only to those outputs which Cabinet is buying. These output costs are measured on an accrual basis and do not include any inter-agency charges, with the exception of the Audit Office. This section details:
  - o A description of the output to be purchased;
  - o The quantity and quality of each output to be purchased;
  - o The delivery dates of each output to be purchased;
  - o The place of delivery of each output to be purchased; and

- o The price to be paid for each output to be purchased.
- o Payment Arrangement schedule inclusive of an invoice profile.

## **ACCRUAL- BASED FORECAST FINANCIAL STATEMENTS**

### **Cabinet Purchased Outputs and Interagency Charging**

In 2013/14, most agencies, with the exception of the Audit Office, will charge Cabinet the cost of producing their outputs.

### **Output Cost**

The cost of outputs purchased by Cabinet reflects the cost of all resources consumed in the production of those outputs. This means that indirect costs (such as depreciation and insurance) are also included in the output costs.

### **The Capital Charge**

The capital charge rate was set to zero for the 2013/14 financial year.

### **Payment Arrangements**

Cabinet will pay for the outputs at the time those outputs are delivered, and on the actual input costs incurred. This means that the Ministry/Portfolio will only get paid or funded if they deliver outputs, thereby providing an incentive to maintain productivity and ensure output delivery. Ministries/Portfolios will invoice Cabinet (via their Minister/Official Member) each month for the outputs delivered during that month, and Treasury will fund the Ministry/Portfolio once that invoice has been authorised by the respective Minister/Official Member certifying that the outputs have indeed been delivered. The 'Payment Arrangement' schedule details the payment arrangements and the monthly expected invoicing profile.

Ministries/Portfolios maintain their own bank account (within a suite of accounts overseen by the Treasury) and are responsible for managing their own working capital. This means that each Ministry/Portfolio will need to ensure that sufficient cash is in the bank account before cheques are authorised or payroll is run. This in turn means that each Ministry/Portfolio will need to ensure that they collect revenue (from the supply of outputs) in a timely manner, and manage their debtor and creditor position so as to maximise their cash position.

### **Accrual Forecast Financial Statements**

The financial figures presented in the Annual Budget Statements reflect accrual budgeting as specified by the Public Management and Finance Law (2012 Revision).

The forecast financial statements of a Ministry/Portfolio for the 2013/14 financial year are provided in the Appendix to its Annual Budget Statement. These statements specify the financial performance the Ministry/Portfolio is seeking to achieve during the financial year, and is specified in four different statements together with a Statement of Accounting Policies and Notes for the Financial Statements (as below):

- Forecast Operating Statement;
- Forecast Statement of Changes in Net Worth;
- Forecast Balance Sheet; and
- Forecast Cash Flow Statement.

A statement of Responsibility, signed by the respective Chief Officer accepting responsibility for the accuracy and integrity of the forecast financial statements, is also provided.

The format of these forecast financial statements is similar to those used by private businesses, and mirrors those that will be used to report Ministry/Portfolio financial performance in quarterly and annual reports. The forecast financials comply with the format and accounting policies required by the Financial Regulations (2010 Revision), and the Public Management and Finance Law (2012 Revision). The Financial Regulations in turn comply with Generally Accepted Accounting Practices as specified by International Public Sector Accounting Standards issued by the International Federation of Accountants.

#### Financial Performance Measures

The Annual Budget Statement identifies the key measures of Ministry/Portfolio financial performance on an accrual accounting basis. These measures are the key numbers from the forecast financial statements and include the following:

##### Operating Statement Measures:

- **Revenue from Cabinet:** this is revenue the Ministry/Portfolio is forecast to earn from Cabinet for producing and delivering outputs for Cabinet's purchase. For the 2013/14 fiscal year, Cabinet will purchase most outputs from Ministries/Portfolios.
- **Revenue from Statutory Authorities and Government Companies:** this is the revenue a Ministry/Portfolio is forecast to earn from Statutory Authorities and Government Companies for producing and delivering outputs which those agencies are buying (these outputs are also specified in Part A of the Annual Budget Statement, since in most cases, Cabinet is also buying them).
- **Revenue from Others:** this is the revenue a Ministry/Portfolio is forecast to earn from the public for producing and delivering outputs which members of the public (including private sector businesses) are buying; i.e. paid for directly through user charges (these outputs are also specified in Part B of the Annual Budget Statement, as Cabinet is also buying them).
- **Surplus/Deficit from Outputs:** this is the difference between the amount of revenue earned from producing outputs, and the cost of producing those outputs.
- **Operating Surplus/Deficit:** this is total revenues less total expenses.

##### Balance Sheet Measures:

- **Net Worth:** this is the value of the Ministry/Portfolio's assets less its liabilities. It is also equal to the amount of capital the Cabinet and or Citizens have invested in the Ministry/Portfolio.

Cash Flow Measures:

**Cash Flows from Operating Activities:** this is the net amount of cash flowing into and out of the Ministry/Portfolio's bank account as a result of activity recorded from the operating statement.

**Cash Flows from Investing Activities:** this is the net amount of cash flowing into and out of the Ministry/Portfolio's bank account resulting from the purchase or sale of the Ministry's/Portfolio's assets.

**Cash Flows from Financing Activities:** this is the net amount of cash flowing into and out of the Ministry/Portfolio's bank account as a result of equity contributions from Cabinet, or the repayment of the surpluses to Cabinet.

The three measures, previously listed, identify the source of a Ministry/Portfolio's cash and is susceptible to changes in market conditions and/or changes in Cabinet's expenditure priorities.

The Surplus/Deficit from Outputs measure tells the reader whether the agency is earning enough revenue to cover the cost of producing its outputs (a deficit means it is producing its outputs at a loss; a zero balance means it is breaking even; and a surplus means that it is making a profit). This is an important measure because the Public Management and Finance Law (2012 Revision) prohibits Ministries/Portfolios from producing an output unless Cabinet, or another entity or person, has agreed to pay for the full cost of the output. That means that the 'Surplus/Deficit from outputs' measure should never be a deficit. In most cases this measure is zero and this is because the budgeting rule states that Cabinet should pay for the outputs they are buying at a price equal to the output cost. However, in a few cases the measure is a surplus; this happens when the user-charge price paid by the public for outputs is higher than the (accrual) cost of producing those outputs.

As a general rule Ownership Expenses are not items that can be budgeted for and so this measure would normally be zero in the budget (although such expenses may occur during the financial year).

The Operating surplus/deficit is the key operating statement measure. The Public Management and Finance Law (2012 Revision) states that a Ministry/Portfolio shall not incur entity expenses exceeding in total its entity revenue in that year. Where it is a surplus, the budgeting assumption is that this surplus is paid over to Cabinet (and therefore forms part of the Executive revenue) rather than be retained by the Ministry/Portfolio concerned.

The Net Worth measure summarises the Ministry/Portfolio's balance sheet position (total assets less total liabilities) at the end of the forecast year. An increase in net worth during the year means that the Cabinet/Citizen's has increased financial investment into the Ministry/Portfolio. Since a Ministry/ Portfolio is required to repay all surpluses to Cabinet, its budgeted net worth

would normally be expected to remain constant from one year to the next. However, when Cabinet makes an equity injection into a Ministry/Portfolio to fund the purchase of a new entity asset (see the discussion below), then the budgeted net worth increases by this amount.

The operating cash flows measure is normally expected to be positive, because cash expenditures are usually less than accrual expenses because they do not include non-cash items such as depreciation.

The investing cash flows measure is normally expected to be negative, as the value of asset purchases are usually significantly greater than the value of asset sales in a year. Indeed, given the nature of Ministry/Portfolio assets, it is likely that non assets will normally be budgeted for.

. Two Standard Financial Performance ratios are provided in the Annual Budget Statement and these are as follows:

- **Working Capital Ratio:** this shows the relationship between the current assets and liabilities of the Ministry/Portfolio, and is a measure of its ability to meet its commitments/pay its bills as they fall due. In the case of Ministries/Portfolios this ratio is expected to be 1:1 or 100%
- **Asset: Liability Ratio:** this shows the level of total assets compared to the level of total liabilities of the Ministry/Portfolio, and is an indication of the long-term financial viability of the entity. In the case of Ministries/Portfolios this ratio is expected to be at least 2:1 or 200%.

#### Physical Capability Measures

The Annual Budget Statement provides measures to show how well the human and physical capabilities of the Ministries/Portfolios are being maintained. The human capability measures are the same as in previous years. These measures are:

- **Value of Total Assets:** this shows the dollar value of the Ministry/Portfolio's assets. As a general rule, a decline in this measure between years indicates a reduction in capability.
- **Book Value of Assets: Cost of those Assets:** the book value of an asset is the cost of the asset less its accumulated depreciation. This ratio provides a measure of how worn the assets are of each Ministry/Portfolio. A high ratio means that (on average) the assets are fairly new, whereas a low ratio means the assets are nearing the end of their useful life and therefore a significant amount of asset replacement is needed or will be needed shortly.
- **Asset Replacement: Total Asset:** this is the amount to be spent during the year buying new assets compared to the total value of these assets. This indicates how much of the stock of assets is being replaced. If assets are old or nearing the end of their useful life, then as a general rule a low value in this measure indicates that the assets are not being replaced at a rate sufficient to maintain capability.
- **Depreciation: Assets Purchases:** depreciation is the measure of how much an asset wears

out in a year and therefore this ratio indicates whether assets are being replaced at the same rate as it is wearing out. A ratio of 1:1 (100%) indicates that it is being replaced at the same rate; a ratio greater than 100% indicates that it is being replaced faster than being worn out (i.e. capability is being improved), and a ratio of less than 100% indicates that it is being replaced at a rate slower than it is wearing out (i.e. capability is declining).

#### Entity Capital Expenditure

Depreciation is included in the operating expenses of a Ministry/Portfolio and this cost is therefore recovered as part of the Ministry/Portfolio's revenue. As depreciation reflects the use (or wearing out) of assets, it means that Ministries/Portfolios are now automatically funded by the amount needed to replace their existing assets as a part of the output revenue earned each year.

Major Entity Capital Expenditure for the year is shown in the Ownership Performance Targets of the Annual Budget Statement. Although these capital expenditures are under the control of the Chief Officer and are not explicitly approved or appropriated by the Legislative Assembly, this table provides important capability maintenance information. It reports the major (but not necessarily all) capital expenditures, relating to its entity assets, planned by the Ministry/Portfolio for the budget year.

In some cases, the depreciation funding a Ministry/Portfolio is receiving is insufficient to cover the asset purchases it wishes to make in a financial year. Where the Cabinet has agreed that these purchases are necessary, it provides additional funding to the Ministry/Portfolio and does this through an equity investment into the entity. This investment is subject to appropriation, and is reflected in an amount that is deposited into the Ministry/Portfolio's bank account (with a consequent increase in net worth), which the Ministry/Portfolio will then use to purchase the asset.

Cabinet requests an equity investment for a Ministry/Portfolio for one of two reasons:

- **Where the assets to be replaced are already depreciated:** Many of the assets owned by Ministries/Portfolios are quite old and are already significantly or fully depreciated though they are still being used. This means Ministries/Portfolios are receiving little or no depreciation funding for those assets and therefore have no cash with which to replace the asset. An equity investment (conceptually equivalent to the amount of unfunded accumulated depreciation of that asset) is therefore necessary.
- **Where the assets to be purchased are new rather than replacements of existing assets:** If an asset is new rather than a replacement of an existing asset, it is inappropriate to use depreciation of existing assets to fund that purchase. To do so would mean no cash would be available to fund the replacement of the existing asset when that replacement is due. This situation essentially represents an expansion in the scope of business to the Ministry/Portfolio, and an equity investment is required to increase the balance sheet commensurately.

Where an equity investment is being requested, this is reflected in the forecast financial statements and financial performance measures in the Annual Budget Statement. Assets funded

by way of equity investments are also included in the 'Major Entity Capital Expenditure of the Year,' in the Ownership Performance Targets of the Annual Budget Statement.

## OWNERSHIP PERFORMANCE

## 1. NATURE AND SCOPE OF ACTIVITIES

---

### General Nature of Activities

Providing support for The Premier and the Cabinet; providing for a well-informed populace through the communication of information relating to the activities of Government agencies and the maintaining of Freedom of Information legislation; providing advice and support to Government agencies with responsibility for protocol services; providing educational, cultural, entertainment and religious programming for the public of the Cayman Islands.

### Scope of Activities

- Support for the Cabinet in coordinating the collection and dissemination of information regarding the decisions of the Cabinet.
- Developing, coordinating and monitoring the policy initiatives of the Government and providing secretarial, administrative and policy support for The Premier.
- Providing for the support of Government agencies in communicating proactively and responsively with the public, utilising the mass media as primary partners.
- Providing advice and training to Government agencies on protocol for officials visiting the Cayman Islands.
- Facilitating the further administration of freedom of information and data protection coordination.
- Providing on air broadcasting of government bulletins, commercials, news, public affairs programmes, entertainment and public service announcements as well as educational, cultural and religious programmes.

### Customers and Location of Activities

The customers of the Cabinet Office are the Governor, The Premier, Members of the Legislative Assembly, Government agencies in the Cayman Islands, Governments of other Overseas Territories in the region, the general public, visitors, public and private organisations, and public servants.

The Cabinet Office provides services throughout the Cayman Islands.

## 2. STRATEGIC OWNERSHIP GOALS

---

The key strategic ownership goals for the Cabinet Office in 2013/14 and the subsequent two years are as follows:

- The establishment of mechanisms to improve the development and coordination of Government Policy, encourage innovation and creativity in policymaking, and identify and oversee policy which encompasses a number of ministries and portfolios.
- The development of a set of modelling tools and information sources in order to assess the impact of Government policies.
- Facilitate the completion of any further constitutional review exercises in accordance with the timetable set by the Government.
- Create greater administrative efficiency to ensure that all services to Government agencies are provided in a timely, quality- oriented, customer focused, efficient and effective manner.
- Administer Freedom of Information across Government departments.
- Improve the Radio Cayman's competitiveness in the market and eventually become self-funding. Actively contribute to the community's development by providing opportunities for members of the community to become more involved and informed.

### 3. OWNERSHIP PERFORMANCE TARGETS

The ownership performance targets for the Cabinet Office for the 2013/14 financial year are as follows:

## 6. PAYMENT ARRANGEMENTS

Cabinet will pay the Cabinet Office for delivery of the outputs described in the Preface.

Payment will be made on the basis of an invoice provided monthly to the Premier. The invoice will contain sufficient evidence of the outputs delivered for the Premier to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for output's to be delivered during the year is outlined in the following table.

*CABINET OFFICE*  
**STATEMENT OF ACCOUNTING POLICIES**

General Accounting Policies

Reporting entity

These Forecast financial statements are for the *Cabinet Office*.

Basis of preparation

The Forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting. Where there is currently no IPSAS, other authoritative pronouncements such as International Accounting Standards and United Kingdom reporting standards applicable to the public sector have been used. The measurement base applied is historical cost adjusted for revaluations of certain assets.

The Forecast financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently.

Reporting Period

The reporting period is the period ended 30 June 2014.

Specific Accounting Policies

Revenue

*Output revenue*

Output revenue, including revenue resulting from user charges or fees, is recognised when it is earned.

*Interest revenue*

Interest revenue is recognised in the period in which it is earned.

Expenses

*General*

Expenses are recognised when incurred.

*Depreciation*

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

Assets

*Cash and cash equivalents*

Cash and cash equivalents include cash held in the Ministry or Portfolio's bank account and on deposit with the Portfolio of Finance and Economics (Treasury).

*Receivables and advances*

Receivables and advances are recorded at the amounts expected to be ultimately collected in cash.

#### *Inventory*

Inventories are recorded at the lower of cost and net current value. Where inventories are valued at cost, specific identification or the FIFO method has been used. Appropriate allowance has been made for obsolescence.

#### *Property, plant and equipment (including Infrastructure Assets)*

Buildings are recorded at historical cost (or fair value as at time of first recognition) or valuation.

Other plant and equipment, which includes motor vehicles and office equipment, is recorded at cost (or fair value if acquired prior to 2010) less accumulated depreciation.

#### *Computer hardware and software*

Computer hardware and software are recorded at cost, and depreciated in accordance with the policy on depreciation.

#### *Liabilities*

##### *Accounts payable*

Accounts payable are recorded at the amount owing after allowing for credit notes and other adjustments.

##### *Provisions*

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

##### *Employee entitlements*

Amounts incurred but not paid at the end of the reporting period are accrued. Annual leave due, but not taken, is recognised as a liability. Long service leave liabilities are measured as the present value of estimated leave service entitlements.

*No loans were granted to key management personnel or their close relatives during the financial year.*

#### **NOTE 23: FINANCIAL INSTRUMENT RISKS**

The Cabinet Office is party to financial instrument arrangements as part of its everyday operations. These financial instruments include cash and bank balances, advances, accounts receivable, debtor-Cabinet and creditors and other payables. The fair value of financial instruments is equivalent to the carrying amount disclosed in the Statement of Financial Position.

##### **Credit risk**

In the normal course of its business the Cabinet Office is subject to credit risk from debtors other than the Cabinet. The Cabinet Office does not have significant concentrations of credit risk for its other financial instruments.

##### **Currency and interest rate risk**

The Cabinet Office has no significant exposure to currency exchange loss risk and interest rate risk.

##### **Liquidity risk**

In meeting its liquidity requirements, the Cabinet Office closely monitors its Actual cash requirements with expected cash drawdowns from Cabinet and receipts from third parties. The Cabinet Office maintains a target level of available cash to meet liquidity requirements.

All of the Cabinet Office financial liabilities (creditors and payables) will be settled in less than six months from the date of these financial statements.

## OWNERSHIP PERFORMANCE

## 1. NATURE AND SCOPE OF ACTIVITIES

---

### General Nature of Activities

Providing policy advice to the Minister of Home Affairs and Cabinet on immigration, public safety and law enforcement matters; contributing to national security and the well-being of the community through effective immigration controls, detention and rehabilitation of offenders, policing, fire safety, and disaster preparedness. Providing critical infrastructure support and management of Government's information technology assets; and provide jurisdictional presence in the UK and Europe.

### Scope of Activities

#### Strategic Human Resource Services

- Providing for the maintenance and enforcement of the immigration laws and regulations.
- Providing for the maintenance and enforcement of law and order, the preservation of the peace, the protection of life and property, the prevention and detection of crime and the apprehension of offenders
- Providing 24-hour emergency response to the people of the Cayman Islands and its visitors.
- Promoting disaster preparedness and mitigation for the Cayman Islands
- Providing for the detention and rehabilitation of offenders
- Providing information technology infrastructure administration, management, and support; develop, implement and support software packages.
- Provide rapid response to fires, aircrafts accidents and other emergencies.
- Support the extension of Cayman Islands Government activities in the United Kingdom and Europe and provide a contact point for foreign stakeholders whilst promoting social, cultural and political understanding.

### Customers and Location of Activities

Customers of the Ministry include the general public, visitors, public and private organizations, and public servants.

The Ministry provides services on Grand Cayman, Cayman Brac and Little Cayman as well as in overseas offices.

## 2. STRATEGIC OWNERSHIP GOALS

---

The key strategic ownership goals for the Ministry of Home and Community Affairs (Home Affairs) for the 2013/14 and the subsequent two years are as follows:

- Significantly enhance the rehabilitation of offenders to help them to become contributing members of society
- Implement a comprehensive training and development programme for law enforcement and public safety
- Improve the intelligence and information sharing capabilities within law enforcement
- Review polices to improve community cooperation and participation
- Provide support for the improvement of human capital across the Ministry to create a dynamic and responsive workforce
- Continue to improve customer satisfaction through timely communication of decisions made and decisions taken.
- Leverage technology to improve efficiency and effectiveness
- Upgrade Government information technology infrastructure network resilience, Internet and electronic transaction security, making Government less susceptible to loss of revenue and productivity, as a result of damage to computing equipment.
- Continually strive to identify weaknesses and threats to the on-going provision of high quality fire and rescue services, and to act upon such issues in a prompt, efficient and economically responsible manner.
- Raise awareness and create a positive impression of the Cayman Islands as an international jurisdiction of importance.

## 6. PAYMENT ARRANGEMENTS

Cabinet will pay the Ministry of Home and Community Affairs (Home Affairs) for delivery of the outputs described in the Preface.

Payment will be made on the basis of an invoice provided monthly to the Minister of Home and Community Affairs (Home Affairs). The invoice will contain sufficient evidence of the outputs delivered for the Minister to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for output's to be delivered during the year is outlined in the following table.

**STATEMENT OF ACCOUNTING POLICIES**

**General Accounting Policies**

Reporting entity

These forecast financial statements are for the Ministry of Home and Community Affairs

**Basis of preparation**

The forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting. Where there is currently no IPSAS, other authoritative pronouncements such as International Accounting Standards and United Kingdom reporting standards applicable to the public sector have been used. The measurement base applied is historical cost adjusted for revaluations of certain assets.

The forecast financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently.

**Reporting Period**

The reporting period is the period ended 30 June 2014.

**Specific Accounting Policies**

**Revenue**

Output revenue

Output revenue, including revenue resulting from user charges or fees, is recognised when it is earned.

Interest revenue

Interest revenue is recognised in the period in which it is earned.

**Expenses**

General

Expenses are recognised when incurred.

Depreciation

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

## **Assets**

### **Cash and cash equivalents**

Cash and cash equivalents include cash held in the Ministry or Portfolio's bank account and on deposit with the Ministry of Finance, Economics and Development (Treasury).

### **Receivables and advances**

Receivables and advances are recorded at the amounts expected to be ultimately collected in cash.

### **Inventory**

Inventories are recorded at the lower of cost and net current value. Where inventories are valued at cost, specific identification or the FIFO method has been used. Appropriate allowance has been made for obsolescence.

### **Property, Plant and Equipment (including Infrastructure Assets)**

Buildings are recorded at historical cost (or fair value as at time of first recognition) or valuation.

Other plant and equipment, which includes motor vehicles and office equipment, is recorded at cost (or fair value if acquired prior to 2010) less accumulated depreciation.

### **Computer Hardware and Software**

Computer hardware and software are recorded at cost, and depreciated in accordance with the policy on depreciation.

## **Liabilities**

### **Accounts Payable**

Accounts payable are recorded at the amount owing after allowing for credit notes and other adjustments.

### **Provisions**

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

### **Employee entitlements**

Amounts incurred but not paid at the end of the reporting period are accrued. Annual leave due, but not taken, is recognised as a liability. Long service leave liabilities are measured as the present value of estimated leave service entitlements.

## OWNERSHIP PERFORMANCE

## 1. NATURE AND SCOPE OF ACTIVITIES

---

### GENERAL NATURE OF ACTIVITIES

#### Administration

- Provide policy advice and administrative support to the Hon. Minister
- Ensure adequate emergency response capacity
- Provide advice, governance and monitor the performance of Boards, Government Companies, and Tribunal under the Ministry
- Provide collaboration with key stakeholders on social issues
- Develop legislation of matters concerning the subjects under the Ministry

#### The Department of Children and Family Services

The Department of Children and Family Services exists to encourage and promote self-sufficiency; to advocate, motivate and educate individuals and families, empowering them to realize their full potential thus functioning effectively as members of our society. This will be achieved through the provision of therapeutic services and community based programmes enhanced by ongoing research and in partnership with key stakeholders.

This is accomplished through the provision of social service to the people of the Cayman Islands including social work services, services to the general adult population, and the elderly and disabled, foster care and adoption services, and the placement of vulnerable children in residential homes.

#### The Department of Counselling Services

- Provision of Individual, couples, family and group therapy to residents of Grand Cayman requiring assistance with a variety of life challenges
- Provision of Parenting and Family Programmes
- Provision of intensive Substance Abuse Treatment including non-medical withdrawal management, primary residential treatment, and re-entry programme to adult males and females.
- Provision of Driving under the Influence Programme
- Public Awareness Initiatives
- Provision of Policy Advice regarding treatment services and therapeutic interventions.

## **The Needs Assessment Unit**

The Needs Assessment Unit exists to assist citizens that are unable to support their families or themselves due to disability, underemployment, hardship, unemployment or other similar reasons. This is accomplished through the provision of financial assistance to the people of the Cayman Islands.

- Provision and management of a scope of public welfare services, inclusive of poor relief, school lunches, food vouchers and burial assistance; and
- Conduct needs assessments for poor relief, medical, temporary assistance and Means Assessments for Maintenance Court.

## **SCOPE OF ACTIVITIES**

### **The Department of Children and Family Services**

- Provide a full range of social work services to the people of the Cayman Islands through a cadre of qualified staff
- Provide day and residential care for indigent elderly adults. This includes purchasing services from NGO's
- Execute duties of the Shelter Operations Sub-Committee of the Hazard Management Council of the Cayman Islands
- Work in collaboration with the Family Support Unit, Education Department, Health Services and other related agencies
- Management of adult care facilities operated by the Department.
- Residential care for children with special needs
- Provision of Community Development services
- The full scope of therapeutic social work interventions required to address the varied child protective, delinquency, and family issues exhibited by the Department's target population
- Provision of residential care for special needs children
- Adoption, Foster and After-care services

- Policy advice relating to the activities and areas of expertise of the Department
- Celebration of Child Month and attendant activities

## **The Department of Counselling Services**

- Individual, Couples, Family and Group Therapy
- Comprehensive Clinical assessments and reports.
- Provision of individual, group and family therapy to adolescents, in order to modify or change substance misuse, criminal offending and other at-risk behaviours.
- Intensive primary residential gender specific treatment programmes to address substance abuse.
- Extended programmes to offer continued therapeutic services and support to clients completing the residential programme that require a longer treatment stay.
- Treatment services to participants in Drug Rehabilitation Court.
- Provision of Family Programmes designed to enhance parenting skills and build more nurturing, supportive and stable families.
- Family Intervention and Victim Advocacy
- Provision of psycho-educational and experiential parent programmes to support the personal, social and/or life-skills growth of young parents.
- Public Awareness Campaigns, workshops, presentations, media events, and training sessions designed to increase skills in dealing with drug and alcohol issues including co-occurring disorders, and family and relationship issues including those related to personal growth and development.
- DUI programme – six-week psycho-educational group designed to increase knowledge and awareness around effects of alcohol, and its effect on driving.

## **Needs Assessment Unit**

- Provision and management of a scope of public welfare services, inclusive of poor relief, school lunches, food vouchers and burial assistance.
- Conduct needs assessments for poor relief, medical and temporary assistance.
- Work in collaboration with the Education Department, Health Services and other related agencies.
- Policy advice relating to the activities and areas of expertise of the Unit.

## **CUSTOMERS AND LOCATION OF ACTIVITIES**

### **The Department of Children and Family Services**

The recipients of the services are the general public, the Ministry of Home & Community Affairs, Health Services Authority, the Courts; Family Support Unit; Crisis Centre; Prison; Department of Counselling Services; Probation/After Care Services; Family Resource Centre and other Departments; and the National Council of Voluntary Organisation (NCVO) and various overseas agencies. The activities are conducted in all six districts of Grand Cayman and Cayman Brac.

### **The Department of Counselling Services**

- Services are provided to adults and youth who are resident in the Cayman Islands.
- Community-based services are provided at The Counselling Centre in Grand Cayman and at Brac Haven – Sister Islands Counselling Centre in Cayman Brac. These services include intake/screenings, assessments, individual, group and family treatment, couples therapy, and a DUI Programme.

### **Needs Assessment Unit**

- The recipients of the services are the general public, the Ministry of Home & Community Affairs and the Ministry of Health. The activities are conducted in Grand Cayman and Cayman Brac.

## 2. STRATEGIC OWNERSHIP GOALS

---

The key strategic ownership goals for the Ministry of Home and Community Affairs (Community Affairs) for the 2013/14 and the subsequent two years are as follows:

- To provide social services to the people of the Cayman Islands through the provision of social work services to the adult population. Specific programmes through which these services will be offered include but are not limited to: The Community Development Programme, Adult Special Needs Programme, Foster Care and Adoption and other services and programmes developed to serve the population. Provide reports to the Courts connected to these services as required;
- Purchase Residential and Day Care Services for the elderly, disabled and indigent persons from the private sector. Provide the same services in facilities owned by the Department;
- Educate the public on the care and welfare of the elderly impressing upon them the importance of assuming responsibility for such family members;
- Provide adequate staffing for all adult residential care facilities (Golden Age Home and Kirkconnell Community Care Centre) for the indigent elderly and/or disabled persons, to ensure proper care and supervision of residents;
- Recruitment of shelter wardens and training of shelter management team. Preparation of all shelters in Grand Cayman for the appropriate and safe management of shelters by the Shelter Operations Sub-Committee during a disaster;
- Sensitizing family members and care-givers of mentally ill, elderly and /or disabled persons in regards to their needs and care in order to ensure quality care is provided by those persons;
- Recruit, train and support Foster Care families and conduct assessments on persons wishing to foster children in a similar manner to those who wish to adopt children;
- Maintaining and enhancing Employee Performance by operating in accordance with the Human Resource (HR) Policies and Procedures of the Ministry of Home and Community Affairs and within the framework of the Ministry's HR Philosophy;
- Provision of appropriate rehabilitation services for youth at the community level that will offer treatment programmes to address risky behaviours such as drug and alcohol misuse, criminal behaviour, etc;

- The enhancement of Inter-agency collaboration, co-operation and communication to ensure the needs of at-risk youth in the community are met through an holistic approach;
- The delivery of family programmes that will assist parents to develop positive and effective parenting skills and that are relevant to communities within the Cayman Islands;
- The continued implementation of a therapeutic milieu model of treatment in the residential treatment programme at Caribbean Haven Residential Centre;
- The continued enhancement and expansion of family therapy services to broaden the range of services available to those residents of our community who may be struggling with issues such as trauma, grief, depression and anxiety, and substance abuse;
- The provision of treatment services to meet the needs of participants in Drug Rehabilitation Court; and
- The delivery of financial assistance to help those in need meet the basic living requirements within the Cayman Islands.

## 6. PAYMENT ARRANGEMENTS

Cabinet will pay the Ministry of Home and Community Affairs (Community Affairs) for delivery of the outputs described in the Preface.

Payment will be made on the basis of an invoice provided monthly to the Minister of Home and Community Affairs (Community Affairs). The invoice will contain sufficient evidence of the outputs delivered for the Premier to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for output's to be delivered during the year is outlined in the following table.

**STATEMENT OF ACCOUNTING POLICIES**

**MINISTRY OF HOME AND COMMUNITY AFFAIRS – COMMUNITY AFFAIRS**

General Accounting Policies

Reporting entity

These forecast financial statements are for the *Cabinet Office*

*Basis of preparation*

The forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting. Where there is currently no IPSAS, other authoritative pronouncements such as International Accounting Standards and United Kingdom reporting standards applicable to the public sector have been used. The measurement base applied is historical cost adjusted for revaluations of certain assets.

The forecast financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently.

*Reporting Period*

The reporting period is the period ended 30 June 2014.

Specific Accounting Policies

Revenue

*Output revenue*

Output revenue, including revenue resulting from user charges or fees, is recognised when it is earned.

Interest revenue

Interest revenue is recognised in the period in which it is earned.

Expenses

*General*

Expenses are recognised when incurred.

Depreciation

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

Assets

#### *Cash and cash equivalents*

Cash and cash equivalents include cash held in the Ministry or Portfolio's bank account and on deposit with the Ministry of Finance and Economic Development (Treasury).

#### Receivables and advances

Receivables and advances are recorded at the amounts expected to be ultimately collected in cash.

#### Inventory

Inventories are recorded at the lower of cost and net current value. Where inventories are valued at cost, specific identification or the FIFO method has been used. Appropriate allowance has been made for obsolescence.

#### *Property, Plant and Equipment (including Infrastructure Assets)*

Buildings are recorded at historical cost (or fair value as at time of first recognition) or valuation.

Other plant and equipment, which includes motor vehicles and office equipment, is recorded at cost (or fair value if acquired prior to 2010) less accumulated depreciation.

#### *Computer Hardware and Software*

Computer hardware and software are recorded at cost, and depreciated in accordance with the policy on depreciation.

#### *Liabilities*

##### *Accounts Payable*

Accounts payable are recorded at the amount owing after allowing for credit notes and other adjustments.

##### *Provisions*

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

##### *Employee entitlements*

Amounts incurred but not paid at the end of the reporting period are accrued. Annual leave due, but not taken, is recognised as a liability. Long service leave liabilities are measured as the present value of estimated leave service entitlements.

## 6. PAYMENT ARRANGEMENTS

Cabinet will pay the Ministry of Finance and Economic Development for delivery of the outputs described in the Preface.

Payment will be made on the basis of an invoice provided monthly to the Minister of Finance and Economic Development. The invoice will contain sufficient evidence of the outputs delivered for the Premier to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for output's to be delivered during the year is outlined in the following table.

Expenses are recognised when incurred.

*Depreciation*

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

Assets

*Cash and cash equivalents*

Cash and cash equivalents include cash held in the Ministry or Portfolio's bank account and on deposit with the Ministry of Finance, Tourism and Development (Treasury).

*Receivables and advances*

Receivables and advances are recorded at the amounts expected to be ultimately collected in cash.

#### *Inventory*

Inventories are recorded at the lower of cost and net current value. Where inventories are valued at cost, specific identification or the FIFO method has been used. Appropriate allowance has been made for obsolescence.

#### *Property, Plant and Equipment (including Infrastructure Assets)*

Buildings are recorded at historical cost (or fair value as at time of first recognition) or valuation.

Other plant and equipment, which includes motor vehicles and office equipment, is recorded at cost (or fair value if acquired prior to 2010) less accumulated depreciation.

#### *Computer Hardware and Software*

Computer hardware and software are recorded at cost, and depreciated in accordance with the policy on depreciation.

#### *Liabilities*

##### *Accounts Payable*

Accounts payable are recorded at the amount owing after allowing for credit notes and other adjustments.

##### *Provisions*

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

##### *Employee entitlements*

Amounts incurred but not paid at the end of the reporting period are accrued. Annual leave due, but not taken, is recognised as a liability. Long service leave liabilities are measured as the present value of estimated leave service entitlements.

## OWNERSHIP PERFORMANCE

## **1. NATURE AND SCOPE OF ACTIVITIES**

---

### **GENERAL NATURE OF ACTIVITIES**

#### **Financial Services Administration**

The main function of the Ministry is the articulation and coordination of Government policy in relation to its subject areas. This includes, coordinating and administering the Ministry's strategy for a globally competitive financial services industry, attracting inward investment, the facilitation of local commerce, and policies to protect the local terrestrial and marine environment. The Ministry provides oversight over specified agencies and statutory authorities, ensuring compliance with PMFL, PSML and relevant laws and regulations. It further provides support to the Minister in the execution of his duties as a member of Cabinet and of the Legislative Assembly.

#### **General Registry**

The General Registry activities involve the maintenance of a General Registry for Companies, Partnerships, Trusts, Birth, Deaths, Marriages, Public Records, Patents, Trademarks, friendly Societies, Building Societies, Trade Unions, as well as services to the public and clients relating to these registers. The Registry further provides Policy advice and services to support the Ministry.

#### **Department of Commerce and Investment**

The Department works to stimulate and facilitate appropriate, long-term, inward and local investment in the Cayman Islands in partnership with other Government agencies and the private sector. This entails activities such as the provision of technical assistance to local businesses, facilitation of inward investment projects, business licensing and the provision of information and policy recommendations on enhancing the local business climate.

### **DEPARTMENT OF ENVIRONMENT**

The Department of Environment works to promote and facilitate responsible management and sustainable use of the natural resources and environment of the Cayman Islands through various programmes and strategies.

#### **Department of International Tax Cooperation**

The nature of the business of the Department of International Tax Cooperation is to comply with international obligations in tax matters and meet commitments to partner jurisdictions, and to demonstrate commitment to international tax cooperation and adherence to international standards.

### **Department of Financial Services Policy and Legislation**

The Department of Financial Services Policy and Legislation is responsible for the provision of research and policy advice to the Ministry and serves as the key channel via which consultation and interaction with the financial services industry and other key stakeholders such as regulatory and other bodies, is carried out on policy, legal and other issues affecting the competitiveness of the financial services industry.

### **Marketing and Communication Unit**

The Unit, in collaboration with other agencies under the Ministry, works to position the Cayman Islands as a premier jurisdiction for business and investment via the design and execution of strategic integrated communications.

## SCOPE OF ACTIVITIES

- Participate in the work of the OECD Global Forum on Transparency and Exchange of Information for Tax Purposes in accordance with the Cayman Islands' membership obligations;
- Provide support for negotiation of agreements and arrangements for the exchange of information for tax purposes;
- Collaborate with the Department of Financial Services Policy and Legislation on tax related international initiatives;

- Attend meetings and conferences related to international tax matters;
- Exchange information for tax purposes with treaty partners in accordance with international standards as required by international agreements and relevant domestic legislation;
- Manage implementation of US and UK FATCA and other instruments for automatic exchange of information for tax purposes;
- Effectively administer all mechanisms for cooperation in tax matters including automatic exchange of information for US FATCA, UK FATCA, EUSD, G5 and multilateral initiatives;
- Perform all competent authority functions and services including bilateral meetings with counterpart competent authorities, implementation meetings for EOI mechanisms and entering into competent authority agreements;
- Perform monitoring, research, enforcement and all other ancillary functions relating to the above

#### **Department of Financial Services Policy and Legislation**

- Conducting policy research and providing regular briefings to the Ministry on matters impacting the competitiveness of the financial services industry
- Implementation, monitoring and review of the Ministry's long term strategy of the financial services industry
- Coordinate consultation with and feedback from the financial services industry

#### **Marketing and Communication Unit**

- Develop and implement marketing campaigns that enhance the image and profile of the Cayman Islands as an investment location of choice
- Arrange and participate in conferences and events that showcase the strengths of the jurisdiction and that will encourage investor interest

#### **CUSTOMERS AND LOCATION OF ACTIVITIES**

Customers are primarily businesses and practitioners within the financial services industry, and local businesses conducting commercial activity in the Cayman Islands. In relation to environment matters, customers include all residents of the Cayman Islands, but also international stakeholders such as HMG. Activities are primarily located within the Cayman Islands.

| <b>Description</b><br>Enforcement of local licensing laws which fall under the authority of the Department. Maintenance of an enforcement regime will entail a variety of activities undertaken by the department, sometimes in collaboration with other government agencies. These activities include, but are not limited to: surveillance operations, investigations, and background checks on individuals.                                                                                                                                                                                    |                                            |                       |

## 6. PAYMENT ARRANGEMENTS

Cabinet will pay the Ministry of Financial Services, Commerce and Environment for delivery of the outputs described in the Preface.

Payment will be made on the basis of an invoice provided monthly to the Minister of Financial Services, Commerce and Environment. The invoice will contain sufficient evidence of the outputs delivered for the Premier to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for output's to be delivered during the year is outlined in the following table.

**MINISTRY OF FINANCIAL SERVICES, COMMERCE AND ENVIRONMENT  
STATEMENT OF ACCOUNTING POLICIES**

**Reporting entity**

These forecast financial statements are for the Ministry of Financial Services, Commerce and Environment. The Ministry is a Government owned entity as defined by section 2 of the Public Management and Finance Law (2010 Revision) and it is domiciled in the Cayman Islands.

**Basis of preparation**

The forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting. Where there is currently no IPSAS, other authoritative pronouncements such as International Accounting Standards and United Kingdom reporting standards applicable to the public sector have been used. The measurement base applied is historical cost adjusted for revaluations of certain assets.

The forecast financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently.

**Reporting Period**

The reporting period is the period ended 30 June 2014.

**Specific Accounting Policies**

**a) Judgments and Estimates**

The preparation of financial statements is in conformity with International Public Sector Accounting Standards that requires judgments, estimates, and assumptions affecting the application of policies and reported amounts of assets and liabilities, revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the reporting period they are determined and in any future periods that are affected by those revisions.

**b) Changes in Accounting Estimates**

There have been no changes accounting estimates as defined by IPSAS 3.

c) Revenue

Revenue is recognised in the accounting period in which it is earned. Revenue received but not yet earned at the end of the reporting period is recognised as a liability (unearned revenue).

The Ministry derives its revenue through the provision of services to Cabinet, to other agencies in government and to third parties. Revenue is recognised at fair value of services provided.

d) Expenses

Expenses are recognised in the accounting period in which they are incurred.

e) Operating Leases

Payments made under the operating leases are recognised as expenses on a straight-line basis over the lease term.

f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash in-transit and bank accounts with a maturity of no more than three months at the date of acquisition.

When there is objective evidence that a financial asset or group of financial assets is impaired the losses are recognised as a loss in the Statement of Financial Performance.

STATEMENT OF ACCOUNTING POLICIES

g) Prepayments

The portion of recognised expenditure paid in advance of receiving services has been recognised as a prepayment in these financial statements.

h) Property, Plant and Equipment

Property, plant and equipment, is stated at historical cost less accumulated depreciation. Items of property, plant and equipment are initially recorded at cost. Where an asset is acquired for nil or nominal consideration, the asset is recognized initially at fair value, where fair value can be reliably determined, and as revenue in the Statement of Financial Performance in the year in which the asset is acquired.

Depreciation is expensed on a straight-line basis at rates stipulated below to allocate the cost or valuation of an item of property, plant and equipment (other than land); less any estimated residual value, over its estimated useful life. Leasehold improvements are depreciated either over the unexpired period of the lease or the estimated useful lives of the improvements, whichever is shorter.

| <b>Asset Type</b>                                | <b>Estimated Useful life</b>                                             |

## Disposals

Gains and losses on disposals of property, plant and equipment are determined by comparing the sale proceeds with the carrying amount of the asset. Gains and losses on disposals during the year are included in the Statement of Financial Performance.

### i) Employee Benefits

Employee entitlements to salaries and wages, annual leave, long service leave, retiring leave and other similar benefits are recognised in the Statement of Financial Performance when they are earned by employees. Employee entitlements to be settled within one year following the year-end are reported as current liabilities at the amount expected to be paid.

Pension contributions for employees of the Ministry are paid to the Public Service Pension Fund and administered by the Public Service Pension Board (the "Board"). Contributions of 12% - employer 6% and employee 6% are made to the Fund by the Ministry.

Prior to 1 January 2000, the Board operated a defined benefit scheme. With effect from 1 January 2000, the Board continued to operate a defined benefit scheme for existing employees and a defined contribution scheme for all new employees. Obligations for contribution to defined contribution retirement plans are recognised in the Statement of Financial Performance as they are earned by employees. Obligations for defined benefit retirement plans are centralized in the Government and therefore, reported in the Consolidated Financial Statements for the Entire Public Sector of the Cayman Islands Government.

## STATEMENT OF ACCOUNTING POLICIES

### j) Financial Instruments

The Ministry is party to financial instruments as part of its normal operations. These financial instruments include bank accounts, short term deposits, trade and accounts receivables and trade and accounts payable, all of which are recognised in the Statement of Financial Position.

#### Classification

A financial asset is classified as any asset that is cash, a contractual right to receive cash or another financial asset, exchange financial instruments under conditions that are potentially favourable. Financial assets comprise of cash and cash equivalents and receivables.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial instrument or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable. Financial instruments comprise of accounts payable and accrued expenses.

#### Recognition

The Ministry recognises financial assets and financial liabilities on the date it becomes party to the contractual provisions of the instrument. From this date, any gains and losses arising from changes in fair value of the assets and liabilities are recognised in the Statements of Financial Performance.

#### Measurement

Financial instruments are measured initially at cost which is the fair value of the consideration given or received. Subsequent to initial recognition all financial assets are recorded at historical cost, which is considered to approximate fair value due to the short-term or immediate nature of these instruments.

Financial liabilities are subsequently measured at amortised cost, being the amount at which the liability was initially recognised less any payment plus any accrued interest of the difference between that initial amount and the maturity amount.

#### De-recognition

A financial asset is de-recognised when the Ministry realises the rights to the benefits specified in the contract or loses control over any right that comprise that asset. A financial liability is derecognised when it is extinguished, that is when the obligation is discharged, cancelled, or expired.

#### k) Contingent Liabilities and Assets (including guarantees)

Contingent liabilities and assets are reported at the point the contingency becomes evident. Contingent liabilities are disclosed when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources. Contingent assets are disclosed if it is probable that the benefits will be realised.

#### l) Foreign Currency

Foreign currency transactions are recorded in Cayman Islands dollars using the exchange rate in effect at the date of the transaction. Foreign currency gains or losses resulting from settlement of such transactions are recognised in the Statement of Financial Performance.

At the end of the reporting period the following exchange rates are to be used to translate foreign currency balances:

- Foreign currency monetary items are to be reported in Cayman Islands dollars using the closing rate at year end date;
- Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported in Cayman Islands dollars using the exchange rate at the date of the transaction; and
- Non-monetary items that are carried at fair value denominated in a foreign currency are reported using the exchange rates that existed when the fair values were determined.

#### m) Comparative Figures

The presentation of the prior year financial statements has been changed to include a comparison

of actual amounts with amounts in the original and final budget. Comparative figures are restated to ensure consistency with the current period unless it is impracticable to do so.

n) Revenue from Non-Exchange Transactions

The Ministry receives various services from other government entities for which payment is made by the Cayman Islands Government. These services include but are not limited to accommodation in the central government building, computer repairs and software maintenance by the Computer Services department and human resources management by the Portfolio of the Civil Service. The Ministry has designated these non-exchange transactions as Services in-Kind as defined under IPSAS 23 – Revenue from non-exchange Transactions. When fair values of such services can be reliably estimated then the non-exchange transaction is recorded as an expense and an equal amount is recorded in other income as a service in-kind. Where services in-kind offered are directly related to construction or acquisition of a fixed asset, such service in-kind is recognised in the cost of the fixed asset.
