**STATEMENT OF ACCOUNTING POLICIES**

Ministry of Education, Employment and Gender Affairs  
General Accounting Policies

Reporting entity

These Forecast financial statements are for the *Cabinet Office*

Basis of preparation

The Forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting. Where there is currently no IPSAS, other authoritative pronouncements such as International Accounting Standards and United Kingdom reporting standards applicable to the public sector have been used. The measurement base applied is historical cost adjusted for revaluations of certain assets.

The Forecast financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently.

Reporting Period

The reporting period is the period ended 30 June 2014.

Specific Accounting Policies

Revenue

*Output revenue*

Output revenue, including revenue resulting from user charges or fees, is recognised when it is earned.

*Interest revenue*

Interest revenue is recognised in the period in which it is earned.

Expenses

*General*

Expenses are recognised when incurred.

*Depreciation*

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

Assets

*Cash and cash equivalents*

Cash and cash equivalents include cash held in the Ministry or Portfolio's bank account and on deposit with the Ministry of Finance, Tourism and Development (Treasury).

*Receivables and advances*

Receivables and advances are recorded at the amounts expected to be ultimately collected in cash.

*Inventory*

Inventories are recorded at the lower of cost and net current value. Where inventories are valued at cost, specific identification or the FIFO method has been used. Appropriate allowance has been made for obsolescence.

*Property, Plant and Equipment (including Infrastructure Assets)*

Buildings are recorded at historical cost (or fair value as at time of first recognition) or valuation.

Other plant and equipment, which includes motor vehicles and office equipment, is recorded at cost (or fair value if acquired prior to 2010) less accumulated depreciation.

*Computer Hardware and Software*

Computer hardware and software are recorded at cost, and depreciated in accordance with the policy on depreciation.

*Liabilities*

*Accounts Payable*

Accounts payable are recorded at the amount owing after allowing for credit notes and other adjustments.

*Provisions*

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

*Employee entitlements*

Amounts incurred but not paid at the end of the reporting period are accrued. Annual leave due, but not taken, is recognised as a liability. Long service leave liabilities are measured as the present value of estimated leave service entitlements.
