## PART A

# OWNERSHIP PERFORMANCE

## 1. NATURE AND SCOPE OF ACTIVITIES

---

### GENERAL NATURE OF ACTIVITIES

The *Cayman Islands 2009 Constitution* requires that there shall be an Auditor General who shall have *“The power and responsibility to audit the public accounts of the Cayman Islands and the accounts and financial dealings of all authorities, offices and departments of Government and of all courts, and power to undertake value for money investigations in respect of the activities of such authorities, offices and departments”*.

It further states that *“In the exercise of his or her functions, the Auditor General (and any person acting on his or her behalf in the exercise of those functions) shall not be subject to the direction or control of any other person or authority, save that the Auditor General is answerable to the Public Accounts Committee of the Legislative Assembly and must attend upon the Committee at its request.”* The powers and duties of the Auditor General are further set out in the *Public Management and Finance Law (2012 Revision)*.

We have developed a clear vision for the work that the Office of the Auditor General (OAG or Office) carries out, along with three core values that underpin our vision. We envision that:

**“Our independent work promotes good governance,  
transparency and accountability in the use of public funds”**

The three core values underpinning the Office’s vision are:

- **Independent** – We work independently from Government
- **Professional** – We carry out our work with integrity and respect, competently and in the public interest.
- **Accountable** – We are accountable to the Legislative Assembly and the people of the Cayman Islands for what we do.

Our vision and values provide an overarching framework under which we have developed the strategic objectives and related activities as outlined in our Strategic Plan for 2011 to 2013.

### Scope of Activities

The Office of the Auditor General is the independent **“Watchdog of Government Spending”** working on behalf of the Legislative Assembly and the wider public. We carry out this role on a day to day basis by undertaking three main categories of work:

- Financial statement audits – includes the Entire Public Sector (EPS) consolidated financial statements, and of each Ministry, Portfolio, Statutory Authority, Government Company and certain non-public funds.
- Performance audits and public information reports which promote the efficient, effective and economic use of resources across Ministries, Portfolios, Statutory Authorities or Government Companies.
- Support and assistance to the Public Accounts Committee (PAC) of the Legislative Assembly.

We also provide support services to Hazard Management Cayman Islands, and the Auditor General is a member of the recently established Anti-Corruption Commission and Auditor Oversight Authority.

In 2013/14, the Office of the Auditor General will be developing performance indicators relating to its performance that will provide the Members of the Legislative Assembly a better means to

assess the performance of the Office and how well it achieved its planned results. These will be discussed with the Public Accounts Committee prior to their use.

**Customers and Location of Activities**

Customers: The Legislative Assembly and the Public Accounts Committee.

Audit Clients: All Ministries/Portfolios, all Statutory Authorities and Government Companies.

Locations: Office of the Auditor General, 3rd Floor Anderson Square, George Town; Client's offices.

## 2. STRATEGIC OWNERSHIP GOALS

---

The key strategic ownership goals for the Auditor General in 2013/14 and the subsequent three years are as follows:

- To develop and strengthen the Office's human resource capability in order to provide an effective and efficient audit service.
- To ensure that we meet the changing needs and expectations of our stakeholders by focusing our resources on matters offering the greatest potential to improve their performance and accountability.
- To continuously improve our own business management practices by identifying and giving priority to the most important risks.
- To enhance the independence of the Office by developing a framework for a separate Auditor General's Act and having it implemented.
- To enhance public accountability through the release of relevant and timely audit reports to all stakeholders.
- To meet the deadlines and commitments of the *Public Management and Finance Law (2012 Revision)* and the *Public Service Management Law (2011 Revision)* and the Personnel Regulations, 2011 Revision.

## 6. PAYMENT ARRANGEMENTS

---

Public Accounts Committee will pay the Office of the Auditor General for delivery of the outputs described in section 1.

Payment will be made on the basis of an invoice provided monthly to the Chairman of the Public Accounts Committee. The invoice will contain sufficient evidence of the outputs delivered for the Minister to be able to satisfy himself that the outputs have in fact been delivered.

Invoices will be paid within 20 days of the end of the month following the invoice date.

The expected amount of each invoice for outputs to be delivered during the year is outlined in the following table:

**OFFICE OF THE AUDITOR GENERAL  
STATEMENT OF ACCOUNTING POLICIES  
FOR YEAR ENDED 30 JUNE 2014  
(Expressed in Cayman Islands dollars)**

**Background Information**

The Office of the Auditor General (the “Office”) was originally established under the Cayman Islands (Constitution) (Order) 1993 under Section 55B and was re-established under the new Cayman Islands Constitution Order 2009 Section 114 as an independent public office. Its mandate and responsibilities are prescribed in sections 58 to 69 of the *Public Management and Finance Law (2012)* (“PMFL”). The main source of revenue is earned from contracted services provided to the Cayman Islands Government (“the Government”). Some of the audit services are undertaken by private sector auditors on behalf the Auditor General.

**General Accounting Policies**

***Reporting entity***

These forecast financial statements are for the Office of the Auditor General.

***Basis of preparation***

The forecast financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSASs) using the accrual basis of accounting.

The forecast financial statements have been prepared on a going concern basis and the accounting policies set out below have been applied consistently to all periods presented. The forecast financial statements are presented in Cayman Islands dollars using the historical cost basis of accounting.

***Reporting Period***

The reporting period is the twelve months ended 30 June 2014.

• ***Judgement and Estimates***

The preparation of forecast financial statements in conformity with IPSAS requires judgments, estimates, and assumptions affecting the application of policies and reported amounts of assets and liabilities, revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the reporting period that is affected by those revisions. As at 30 June 2014 forecast and 30 June 2013 estimated actuals, no reliable fair value estimate of contributed goods and services provided by Government entities could be made and therefore no estimated amounts are recorded in these financial statements.

**Specific Accounting Policies**

***Revenue***

***Audit Services Revenue***

The Office derives its revenue from the Public Accounts Committee (“PAC”) and other government entities for audit services provided according to the provisions in the PMFL. These

services are defined in the PMFL, which includes financial statement audit work, other assurance work and special investigations undertaken on the initiative of the Auditor General or at the request of the Legislative Assembly or any of its committees or subcommittees. Audit services revenue is recognised in the accounting period in which it is earned.

### ***Expenses***

#### ***General***

Expenses are recognised when incurred on the accrual basis of accounting. In addition, an expense is recognized for the consumption of the estimated fair value of contributed goods and services received, when an estimate can realistically be made.

## **OFFICE OF THE AUDITOR GENERAL STATEMENT OF ACCOUNTING POLICIES FOR YEAR ENDED 30 JUNE 2014 (Expressed in Cayman Islands dollars)**

### ***Expenses (continued)***

#### ***Depreciation***

Depreciation of non-financial physical assets is generally provided on a straight-line basis at rates based on the expected useful lives of those assets.

#### ***Operating Leases***

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under the operating leases are recognized as an expense on a straight line basis over the lease term.

### ***Assets***

#### ***Cash and cash equivalents***

Cash and cash equivalents include cash held in two bank accounts in the name of the Office of the Auditor General maintained with the Royal Bank of Canada in the Cayman Islands and a petty cash fund.

#### ***Accounts Receivables***

Accounts receivables are recognised initially at fair value and are subsequently measured at amortized cost less a provision for impairment. A provision for impairment of accounts receivables is established when there is objective evidence that the Office will not be able to collect all amounts due according to the original terms of the receivables. Significant delays in payments are considered indicators that the receivable may be impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the statement of financial performance. When an accounts receivable is uncollectible, it is written off against the allowance account for accounts receivable. Subsequent recoveries of amounts previously written off are recognized in future periods as revenue in the year in which it is collected.

#### ***Work in Progress***

Work in progress represents time spent performing contracted services that has not yet been billed. Work in progress is stated at net realisable value.

### *Property, Plant and Equipment*

Property, plant and equipment are carried at historical cost (which includes acquisition cost) less accumulated depreciation and are depreciated on the straight line basis at the following rates and estimated useful lives:

|                         |                                      |
|-------------------------|--------------------------------------|
| Leasehold Improvements: | over the remaining life of the lease |
| Furniture and fittings: | 6.66% (15 years) to 20% (5 years)    |
| Computer Equipment:     | 33.33% (3 years)                     |
| Office Equipment :      | 10% (10 years) to 33.33% (3 years)   |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the period end. Assets that are subject to amortisation are reviewed for impairment whenever events of changes in circumstances indicate that the carrying amount may not be recoverable. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amounts. The recoverable amount is the higher of the asset's fair value less costs to sell and its value for use in service.

## **OFFICE OF THE AUDITOR GENERAL STATEMENT OF ACCOUNTING POLICIES FOR YEAR ENDED 30 JUNE 2014 (Expressed in Cayman Islands dollars)**

### ***Liabilities***

#### ***Accounts Payable***

Accounts payable are recognised initially at fair value and subsequently measured at amortized cost.

#### ***Employee Benefits***

##### ***a) Annual Leave entitlement***

Annual leave due, but not taken, is recognized as a current liability at the current rates of pay.

##### ***b) Pension Obligations***

Pension contributions for employees of the Office are paid to the Public Service Pensions Fund (the "Fund"). The Fund is administered by the Public Service Pensions Board and is operated as a multi-employer non-contributory Fund, whereby the employer pays both employer and employee contributions. Pension contributions are included in personnel costs in the statement of financial performance. All employees of the Office belong to the defined contribution scheme.

#### ***Surplus Payable***

Pursuant to the *Public Management & Finance Law (2012 Revision)* section 39 (3)(f) the Office may "retain such part of its net operating surplus as is determined by the Minister of Finance". When surpluses arise these are booked as a payable to the Cayman Islands Government, unless the Office is directed by the Minister of Finance that the surplus can be retained.

#### ***Provisions***

Provisions are recognised in accordance with IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets.

***Contributed Capital***

Contributed capital relates to initial working capital and start up cash provided to the Office, equity injections for fixed asset acquisitions that are funded by the Cayman Islands Government and contributed goods and services provided by Cayman Islands Government entities to the Office less any surpluses repayable.

***Foreign Exchange***

Monetary assets and liabilities denominated in foreign currencies are translated into Cayman Islands dollars at the exchange rate prevailing on the statement of financial position date.

Revenue and expense items denominated in foreign currencies are translated in Cayman Islands dollars at the exchange rate prevailing on the transaction date. Gains and losses on translation are included in the statement of financial performance.

**NOTE 10: COMMITMENTS**

The Office has a non-cancellable accommodation lease with Anderson Square Development Company Ltd., which ends at the 30 June 2014. It is anticipated the Office will be leasing new space in the coming years as an increase in office space is needed.

**NOTE 11: CONTINGENT LIABILITIES**

As at the 30 June 2014 there are no forecasted quantifiable and non-quantifiable contingent liabilities (30 June 2013: no contingent liabilities) and therefore no contingent liabilities have been provided for in these forecasted financial statements.

**NOTE 12: RELATED PARTY TRANSACTIONS**

There is to be no inter-agency charges for goods and services (human resource services, financial support services, legal services, computer hardware & systems support services, and software licensing fees) provided amongst the various core government entities, except for the audit fees that we bill. The Office is unable to make an estimate of the fair value of these contributed goods and services received for both 2013/14 and 2012/13.

**Key Management Personnel**

We are budgeting for four personnel at the senior management level (2013: four). Their total remuneration includes: regular salary, pension contributions, health insurance contributions, acting & duty allowances, and motor car upkeep. Total remuneration budgeted for senior management in 2013/14 is forecasted to be \$515k (2012/13: \$517k). **NOTE 13: FINANCIAL RISK MANAGEMENT**

The Office is exposed to a variety of financial risks including credit risk and liquidity risk. The Office's risk management policies are designed to identify and manage these risks, to set appropriate risk limits and controls, and to monitor the risks and adhere to limits by means of up to date and reliable information systems. These risks are managed within the parameters established by the Financial Regulations (2010 Revision).

Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Office. Financial assets which potentially expose the Office to credit risk comprise cash and cash equivalents and accounts receivable.

The Office is exposed to potential loss that would be incurred if the counterparty to the bank balances fail to discharge its obligation to repay. All bank balances are with one financial institution located in the Cayman Islands which management considers to be financially secure and well managed.

The Office is also exposed to a significant concentration of credit risk in relation to accounts receivables, all of which are due from other Government entities. No credit limits have been established. Forecasted as at 30 June 2014 and 2013, no provision for doubtful debts will be made as none of these assets are anticipated to be impaired and management considers these debts to be recoverable in full. Notwithstanding the concentration risk in relation to accounts receivables, management does not consider the Office to be exposed to significant credit risk as all of the counterparties are Government entities in which the Office has had no past experience of any significant default or loss.

The carrying amount of financial assets recorded in the forecasted financial statements represents the Office's maximum exposure to credit risk. No collateral is required from debtors.

Liquidity Risk

Liquidity risk is the risk that the Office is unable to meet its payment obligations associated with its financial liabilities when they are due.

The ability of the Office to meet its debts and obligations is dependent upon its ability to collect the debts outstanding to the Office in a timely basis. Management manages liquidity risk through monitoring cash flows from debtors, maximizing days credit taken from suppliers if needed, and if the circumstances required it to obtain funding from Government to temporarily fund any shortfalls the Office would have with its own cash flows. Forecasted as at 30 June 2014 and 2013, all of the financial liabilities are anticipated to be due within three months of the year end dates.

#### **NOTE 14: FINANCIAL INSTRUMENTS – FAIR VALUES**

As at 30 June 2014 and 2013, the forecasted carrying value of cash and cash equivalents, accounts receivable, work in progress, accounts payable and employee entitlements approximate their fair values due to their relative short-term maturities.

Fair values estimates are made at a specific point in time, based on market conditions and the information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions, economic conditions and other factors could cause significant changes in fair value estimates.
