

Statement by the Hon. Dwayne S. Seymour
13 December 2024

Mister Speaker, I would like to make a statement in response to a message circulating on social media from the former Minister of Sustainability & Climate Resiliency, Hon. Katherine Ebanks-Wilks, MP.

Mister Speaker, the Member should be well aware of the potential termination costs of exiting the ReGen Project Agreement having brought the Paper to terminate the project to Cabinet.

Mister Speaker, as the exit of the Project Agreement has not been finalized, it would be ill-advised to discuss specific details at this time, as the Member should be well aware. Once the Government is in a position to share the final details it will do so.

I would like to assure the Caymanian public that the Government's objectives in the exit of the Project Agreement is that the best interests of our people are protected. This is of paramount importance.
